

Keep Your Drugs Safe

SAFEMEDS

**High security
lock box solution**

A high security lock box system capable of mounting in ambulances and other areas where drugs need to be tracked or distributed.

- Integrated with the UCapIt web service platform
- Track who is accessing the narcotics in one place (the web service) - no multiple web service logins!
- Dual validation and two form factor identification using PIN and PROX card, Bar Code, Magnetic Strip or Biometric reader ID system
- It is tough - 14ga steel
- It is secure - electronic lock with manual backup
- Ethernet or Cellular modem data connection
- It is simple.

Keep Your Drugs Safe

Add SAFEMEDS to your existing UCapIt Solution or implement it on its own.

- + An economical way to get your narcotics under control whether in the office or in your rescue vehicle
- + Complete security
- + Full access to the UCapIt Web Service with just one SAFEMEDS
- + Use your existing employee badge or Pin Number
- + Dual Validation and two form factor identification for meeting DEA requirements for narcotic storage control
- + Dynamic checklists
- + Mobile tracking and alerts
- + Cellular data connection option
- + Real time reporting 24/7

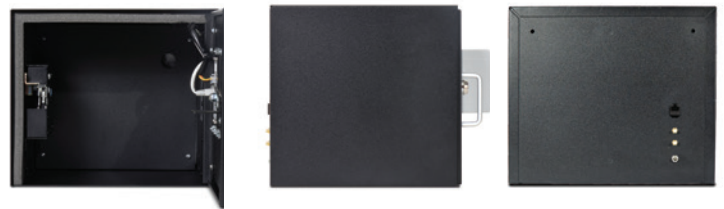

It's simple.

1. Authorized personnel are able to use the same pin pad, barcode, PROX reader, biometric, or a stripe reader already used by the department to access their account when stocking or returning inventory.
2. Products are logged into the system, and each transaction is then tied to an employee

It's smart.

iQ Software is the brain of the SAFEMEDS system that puts managers back in control of what is often a confusing and frustrating situation. The cloud-based operating system and inventory control lets admins track the inventory in your stock room and your vehicles so that the complete chain of products can be tracked for reordering and expiration status.

Specifications	
Compartments Size	Opening: 10"H x 11.2"W Interior: 10"H x 9.8"W (Min. to door latch) Depth: 9.1"D
Communication	Web based (CAT5E)
Electrical Requirements	120 VAC/60Hz, 1.5 AMPS Current Draw: 0.25 Amps
Height	Package: 14.14" (36 cm) Item: 11.2" (28 cm)
Width	Package: 15.63" (40 cm) Item: 13.03" (34 cm)
Depth	Package: 15.50" (40 cm) Item: 13.88" (36 cm)
